

*Hummustown e' una Cooperativa che sostiene i rifugiati Siriani a Roma*

Dear Pedevilla SpA,

I write this letter with the aim of communicating, for my part and from Hummustown cooperative, esteem and gratitude for the work done in synergy in recent months.

As you know, Hummustown is a Roma-based cooperative which helps Syrian refugees in Rome gain economic independence by providing them with a dignified income generating job opportunity: to cook, package and deliver delicious Syrian food around Rome.

This our first collaboration, with the "thematic international day menu" in your corporate restaurants has given us a very extensive visibility and is supporting us in meeting the objectives of our cooperative.

Thanks to your valuable contribution, you have supported a number of Syrian refugees by providing them with the most crucial achievement they aspire to- a dignified job.

I am hopeful that this collaboration will grow more and more in the near future. We also want to thank your team, from the administration to the restaurant managers and to the team inside the kitchens who have welcomed us so warmly.

Once again, many thanks profusely from all of us here at Hummustown!

Sincerely,

Shaza Saker

Founder of Hummustown

Rome, 22 June 2018
